

Black			Olive
Charcoal			Grass Green
Brown			Lime
Navy			Deep Red
Royal			Red
Turquoise			Orange
Violet			Magenta
Lavendar			Pink
			White*

Important Information to keep in mind!

***White ink is NOT available on Die Cut Stickers.** (Can be used on round stickers)

*White ink will ONLY work well with darker colored backgrounds. Please do not choose to use white ink on a light colored background as it will not show up.

*Please refer to the Label Easel to see where white ink works best!

Other colors of ink will work best on lighter backgrounds. For example, Hot pink ink will work well on a light pink background, or royal blue will work on a light green background, but red ink does not work well on a green background. Colored ink will generally work best on a white background.

Picture Perfect will try its best to match the color of ink to the label chosen- if we find that an ink color is not working well we will e-mail you for an alternative selection.

If no ink color is specified on the order, we will print it in the color that is shown on the easel.

When ordering M007 or M009 please assign and save the photo with the same PO # as on the order form. Then email the unaltered photo to orders@picturep.com. Sorry we can not scan or accept scanned photos. Please note we can not guarantee the quality of photos. If necessary, we will inform you that your photo may not reprint well.
